## Experiential Learning

### 5 Tips for Experiential Learning

- 1) \_\_\_\_\_
  - People learn best when they can \_\_\_\_\_ an idea for themselves
  - Through a range of activities we can see the idea from a variety of \_\_\_\_\_
  - \_\_\_\_\_ are involved
  - Large group learning builds \_\_\_\_\_
  - Use the experience to debrief and \_\_\_\_\_ what they've just learned
- 2) \_\_\_\_\_
  - Ask \_\_\_\_\_ to break down what they've just learned
  - Start with \_\_\_\_\_ questions and go deeper
- 3) \_\_\_\_\_
  - The group has had enough \_\_\_\_\_ that they should be curious about what the point is
  - Go to \_\_\_\_\_ and explore it together
- 4) \_\_\_\_\_
  - What does this mean for \_\_\_\_\_?
  - What is one \_\_\_\_\_?
  - Commit to \_\_\_\_\_ it!
- 5) \_\_\_\_\_
  - Pray for the \_\_\_\_\_, the Teacher, to join you in this process
